

MC MEDICREATIONS

The Medi Inject

Aesthetic Injection Redefined.

We're Due For A Revolution.

Refrigerators can order groceries and cars can practically drive themselves.

Yet your syringe is stuck in the 19th century.

It does the job, of course, in that it delivers its contents where it needs to go.

But the precision of each injection depends heavily on user skill, with that chance of user error always hovering just over your shoulder.

That means inconsistent treatment outcomes. Added pressure during treatments. Unnecessary mental fatigue.

Time for something new.

Introducing the Medi Inject, a radical paradigm shift for any medical professional performing aesthetic injections.

The Medi Inject:

Type of Needles	Adjustable
Needle Depth	0.25-3.0mm Adjustable
Memory Channels	Yes
Features	Auto-Sensing & Manual
Repeat Cycles	Yes
Syringes	3cc, 5cc, 10cc

Sick of the Status Quo? So Are We.

The Medicreations team has nearly

50

years of combined experience immersed in some of the world's leading aesthetic device brands.

We've learned how things are "supposed to go" from the giants of the industry. **It's terrible.**

Devices built around... Expensive, single-use consumables. Manipulative sales tactics. Absurd pricing structures designed to gouge every last cent from care providers.

So... We got together some pretty smart scientists, engineers, and business people to do things differently.

Our revolutionary idea:

Make a living *with* the people who use our devices, not *from* them.

Quality Devices + Transparent Process + Fair Pricing = Our Promise

Aesthetic care professionals should have access to reliable, high-performance devices at prices that actually make sense.

That's why we design our machines to utilize ***as few consumables*** as possible, even when competitors don't. Why we have a ***industry-leading two-year guarantee*** for all parts and damage. Why even though we'd put our devices against nearly any other brand's in terms of performance, ***we don't charge a premium.***

As for our process, our representatives will never sell you a device that you do not need. If it won't improve your business and make your life richer, it doesn't go out the door. Period.

“The way it's always been” isn't the right way. We want to do better.

Always Built In Our FDA-Compliant Facility Right Here In Las Vegas, NV.

Medicreations devices are some of the only aesthetic care devices fully manufactured in the United States, with at least

61%

of all components sourced from U.S. suppliers.

Our FDA-compliant facility features a clean room and full-service center, staffed by our excellent team of professionals. Every device is meticulously built and subject to strenuous quality control checks before shipping out.

We film videos of our process and offer guided tours of our facility on request. We are proud of how we build our devices and what goes into them.

If you're ever down in Vegas, let us know and we'll show you around!

There Are Small Steps. Then There Is 3D Auto-Injection™.

The Medi Inject system turns every injection into a precise software-controlled operation, ensuring even delivery of product with a pre-set depth, volume, and spread.

There is nothing else like it.

It can accommodate a 3cc, 5cc, or 10cc syringe, glass or plastic. These can be filled with anything you need to deliver.

PRP. HA. Anesthetic. Vitamin C. Treatment cocktails.

It comes with two syringe heads. A 5-needle head for treating the scalp. A 9-needle one for everything else, complete with a vacuum attachment for maximum surface contact.

Each head utilizes a patented design engineered to minimize tearing of skin, maximize even distribution. Discomfort during treatment is equivalent to a single needle—but it's 9X better at delivering product.

The depth these needles penetrate are completely adjustable via an intuitively simple touchscreen interface, from 0.25 to 3.0 mm. Deeper than any other auto-injection system, and far more precise.

And no leaking.

Punch In The Numbers. Let The Device Do The Work.

Traditionally, proper injection takes technique and skill.

You need steady hands. Precision. Judgement. All to make sure you're injecting in the right place, the right amount, and the right depth.

The *Medi Inject's 3D Auto-Injection*™ technology makes these factors redundant, and transforms a wildly inconsistent process into something perfectly precise and, most importantly, infinitely repeatable.

No more random variables. You get the exact same depth, material volume, and delivery every single time, all set in advance through an intuitive touchscreen interface.

The software controls the device, and you deliver the precise treatment you set out to provide.

One-Of-A-Kind Treatments—Unlocked.

Completely even, consistent, and repeatable treatments mean certain treatments that were incredibly difficult to perform previously now... aren't.

Full-face Botox is no longer a labor-intensive chore. Facial anesthesia is suddenly a viable (and faster) alternative to topical numbing. Even other, cutting-edge aesthetic treatments are suddenly on the table.

In all fairness, the Medi Inject isn't ideal for every procedure. There will always be a need for traditional, single needle injections.

But for many, the device's 3D Auto-Injection™ technology is the next stage of aesthetic equipment, bringing treatment speed, precision, and effortless consistency to another dimension.

Ask about the Medi Inject
—and bring your practice into the future.

Every Medicreations Device Is Backed By An Industry-Leading 2-Year “We’ll Fix It” Warranty.

In the rare event your devices malfunction or break due to a technical defect—**we’ll take care of it.**

The benefit of having our manufacturing facility in the U.S. is that we always have access to the very same engineers and technicians who designed and built your machine in the first place. We know exactly how to get your devices working perfectly again. And if we don’t? We’ll replace it at no charge. **Simple.**

We stand behind our products for a full two years—double that of the industry standard. Nor do we require you to pay tens of thousands of dollars for that warranty.

If you buy any Medicreations device, you just won’t have to worry about it for a full 730 days, with options past that.

The Whole Is Greater Than The Sum Of Its Parts, And Definitely One Part Alone.

To most med spa operators, a single device can seem like an incredible investment. Here's the calculus.

If a machine works out well, the buyer might earn a return in 2-3 years. At which point they might buy a different one. Rinse and repeat, and they could one day provide the full range of experiences their patients are looking for. Theoretically.

Let's skip that.

Medicreations offers a whole suite of products to deliver comprehensive aesthetic treatments for patients, all at the cost of a single device from other manufacturers. You can provide hair removal alongside skin tightening, body sculpting with muscle toning, or any other synergistic combination. No waiting for years—you could own them all tomorrow.

The difference between 1 device & several is incalculable.

It's a single instrument against an orchestra, a solo competing with a symphony. Only when all the pieces meld together will you find yourself producing that cohesive experience that is "just so."

We'll Teach You Everything About Your Device (And More Besides).

We *love* helping people learn the science and use behind our products. Seriously. So much so we actually built a little academy here in Vegas to do it better.

You'll receive a comprehensive onboarding process when you get any of our lineup at no additional cost. Everything you need to know about usage and care of your devices will be included. That's expected, a given. But we offer more.

Regular Webinars With Top Doctors On The Science

Whatever you want to learn, we'll provide.

See If A Medicreations Device Is Perfect For You

Lets talk. We'll make sure you understand the science behind the device you're interested in, who it's ideal for, and how to get the most from it. And if during the process, you find out you're not so sure it's for you?

That's OK.

We only want to sell devices that we sincerely believe will be a benefit to your practice, help you hit the goals you want to hit, and blow your ROI out of the water.

Something that checks every box for you in particular, with NO exceptions.

Maybe that something will be a Medicreations device.
